

Keeping businesses connected for over 20 years.

Networks that improve how people feel, work, live, and learn.

Thank you for considering us as your connectivity, communication, and manage IT provider.

We value longevity. For over 20 years we've created timeless, durable networks across the healthcare, education, residential, commercial and community sectors. Our networks have improved how people feel, work, live and learn.

The most enduring relationships are those built on trust, and we're immensely proud that we have partners and clients who have worked with us for over two decades, trusting us to deliver the latest technology and services.

Business owners and managers typically approach us when they're looking for options to grow their business and meet their customers' changing demands but are finding it difficult to achieve this due to internal resources.

That's where we work with you to understand your pain points and specific business requirements - from this, we develop a delivery plan that meets these exact needs, delivering complete customer satisfaction and developing a mutually beneficial relationship.

Wherever you are, whatever your needs, we'll keep you securely connected 24/7.

We listen to you. To create network that works. What our Partners say.

ARB Network Solutions.

“ ”

We've been working with One Eighty South Africa since we started our business in 2004 and have been utterly delighted with their service. The staff can't do enough to help us and assist our customers. Dealing with them is easy; everyone at One Eighty South Africa understands telecoms, understands customers, and knows how to consistently provide excellent service. If you are not currently dealing with One Eighty South Africa, then you are missing out on something good both for your business and for your customers' business.

Imperial Select.

“ ”

Working with the One Eighty South Africa team for several years now and have been absolutely delighted with the service provided. In addition to offering my customers excellent rates for call spend, line rental, broadband, and, very importantly, providing consistent contact persons for each order and issue, they make life very easy for me. Once my customers have agreed to save money with us, I pass them to the One Eighty South Africa team, and they take over the order and paperwork. Fantastic!

Philip Morgan.

“ ”

We have been working with One Eighty South Africa since 1987 and have always found the One Eighty South Africa team to be a great asset to our business. We use their network services, and our customers comment on how helpful the support desk team is.

One Eighty SA Director.

“ ”

At One Eighty SA, we are driven by positivity and the belief that technology can make the world a better place for individuals, society, and the environment - That's why our solutions are designed not only to meet your current needs but also to lay a strong foundation for the future.

Creating networks that work for you. Now and in the future.

We listen.

To clients, to stakeholders and each other. By listening we solve the right problems and answer the most important needs to create networks that work.

We think.

Every last detail is thought through. We know our projects inside out – that's why they run efficiently, cost-effectively and are delivered on time.

We advise.

From initial design concepts to post-completion we're a critical friend. Here to share knowledge, pre-empt problems and pinpoint solutions. We're here to help, to add real value to both the process and the end result.

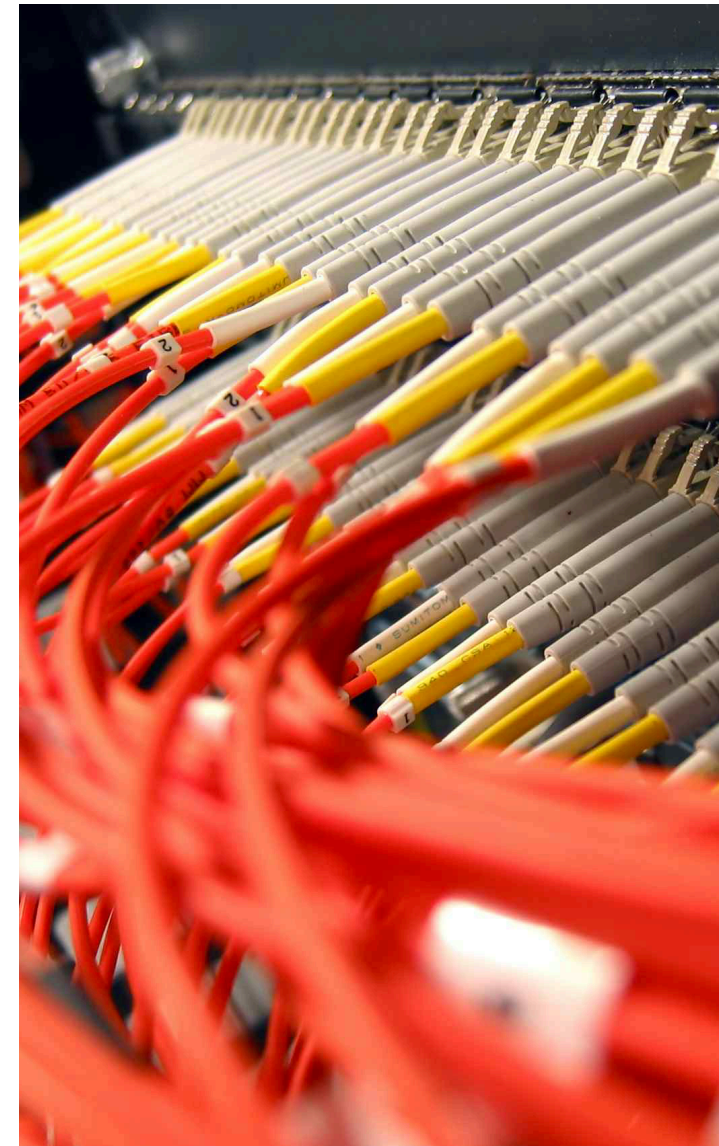

We lead.

Every project benefits from the hands-on involvement of our leadership. This brings unique insight and sector specific experience to the table. Giving all projects – large or small – the highest level of care and attention.

What makes us different?

We put your customers first

We know that your customer base is your most hard-won and precious asset, and so our service is designed to protect your business reputation in everything that we do and to create networks that works.

We think long term

Focused on enabling change for our customers, we provide a connected, productive and secure platform to maximise data, improve workflow and accelerate growth - now and in the future.

We're reliable and responsive

Communication is the foundation of any rewarding relationship, that's why our dedicated team is only ever a phone call away for any questions you have - or if you just fancy a chat. We keep communication consistent and ensure that your inquiries are responded to without delay so you're always kept in the know.

We reward you fairly

Our business is built on relationships. In exchange for the trust you place in us, we connect you to your customers across enterprise networks, enabling your business to operate at all times, efficiently, securely and at top speed. We're here for you, so you can be there for yours.

We're innovative

We know how hard it is to keep up with changes in technology. We invest in technology expertise so that you don't have to. We only select the best of breed, proven products so you can be confident that even in a fast-moving market your customer receives a long-term solution for their needs.

We're proudly South African

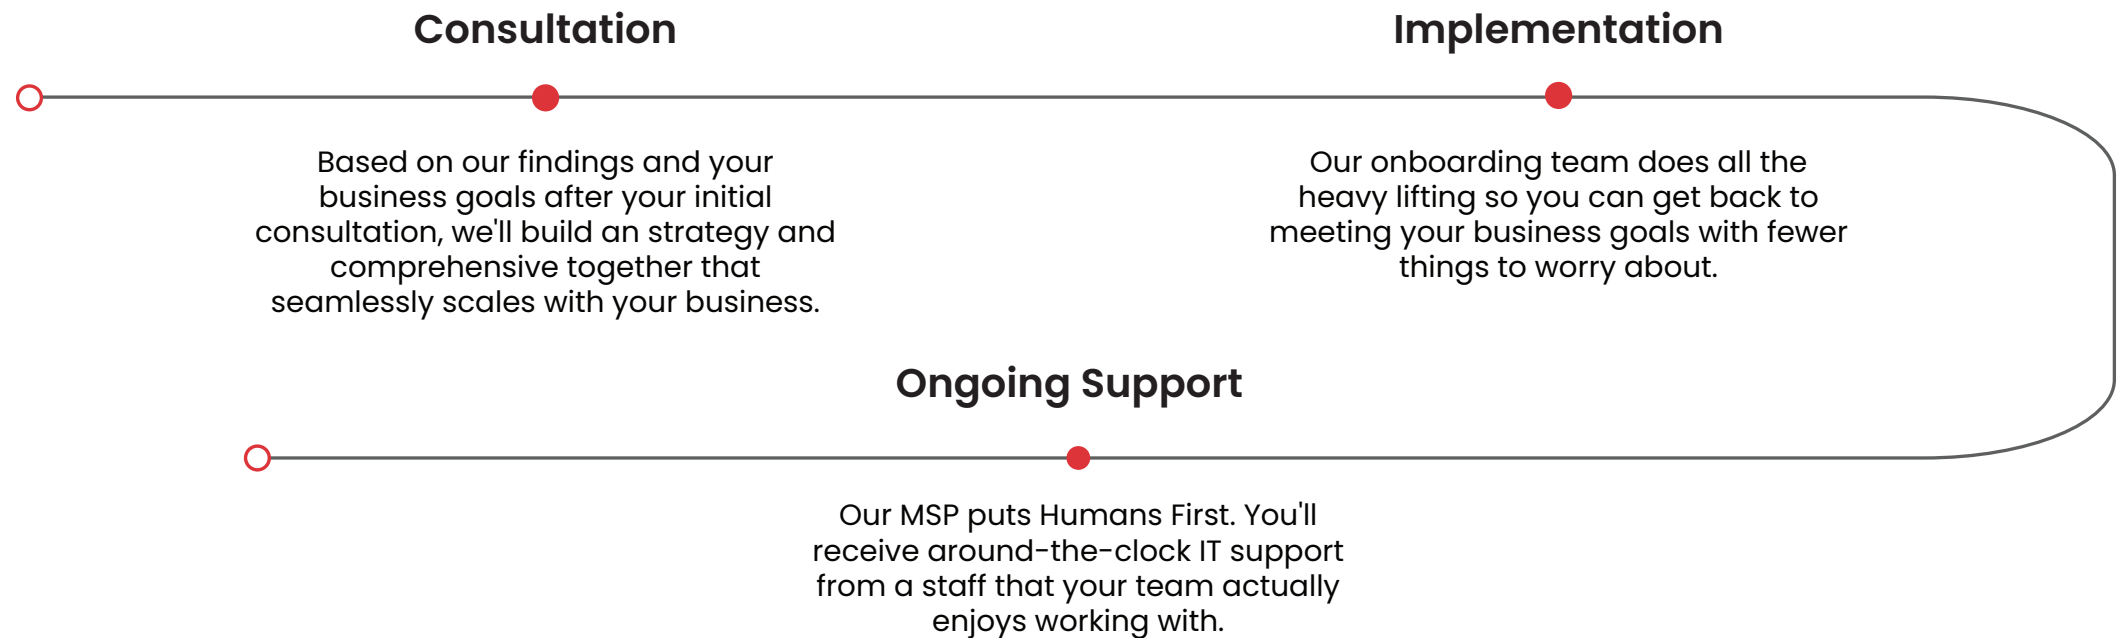

Trading for over 20 years, we have strong and established relationships with all the main industry providers. Our longest-standing clients and partners have been with us since the early two thousands, and we pride ourselves on the level of retention we've obtained by delivering excellent service and support.

From distributed teams to advancing IoT solutions, we can deliver the infrastructure and tools required to ensure your business operates efficiently at all times, with a 24/7 connected workforce.

Partner onboarding process

Once you've decided to become a One Eighty South Africa client, you'll embark on our structured onboarding process. We'll discuss the tools and resources available to you and how these will fit into your business strategy. From this, we'll agree on what a successful relationship looks like to you and ensure your expectations are understood by our entire team.

Our Typical Client Onboarding Process:

Consult. Design. Install. Maintain/Manage.

We keep up with the fast-paced technology world, so you don't have to

We know how hard it is to keep up with changes in technology. It seems like there's always a new update, a new product, and usually a new challenge. With One Eighty South Africa by your side, you can quickly add the latest connectivity, communication, and cloud services to your existing portfolio to expand your business expertise, re-engage with customers, and generate new revenue streams - all without having to make an expensive in-house investment.

Managed Services:

Technical support is at the heart of everything we do. Managed by our expert team, we provide the secure, scalable and flexible IT environments demanded by businesses today.

Sales Support

Whether you're a referral or long term partner, our team is here to help you deliver a seamless purchasing experience to your customers, with our pre and post-sales support.

We can work more closely with your customer base, delivering the following services which can be tailored to fit your exact needs.

Proposal Documentation

We can work with you to create unique proposal documentation which integrates your core business with One Eighty South Africa's services in a streamlined way.

Quotation Support

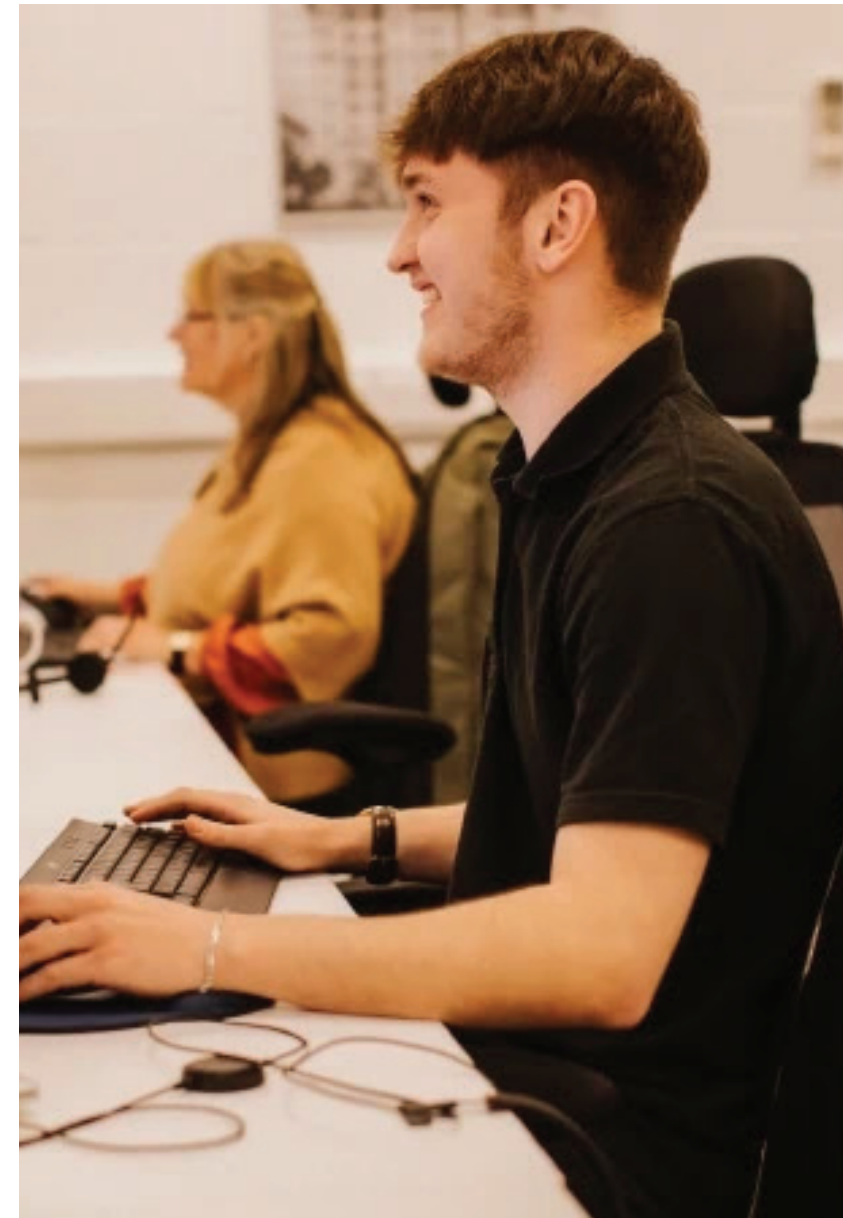

Our pricing tools make it easy for us to create bespoke quotations for you as our customer. There's no need to calculate prices yourself; we take care of this for you, ensuring quotes are accurate, transparent, and easy to understand.

Product Training

In-depth product training for your sales and technical staff helps you support your customers and expand your organization's capabilities.

National Footprint

As a fast-growing network cabling company, we have offices country wide – Gauteng, Cape Town, Kwazulu Natal, Northern Cape, and Gqeberha. Our experienced team strives to deliver high-quality & reliable services, with the aim of exceeding customers' expectations.

Technical support

Our support team is on hand to offer your business continued support and guidance.

We offer first-line support to our clients, with round-the clock technical and billing support

We also have a team of accredited field engineers able to provide on-site, white-label support if you need it.

Our friendly team will continually work towards your ideal outcome, building a rapport with you to ensure that we always deliver service, just as you would like it.

From initial design through to completion, our networks reflect the needs of our clients and the people that will use them. This approach makes projects accessible, collaborative and enjoyable for all. That's how great networks take shape.

Change for the better

The only constant is change and we, as an organisation, want to enable change for the better.

What's more, we understand the significant and positive impact our progressive digital solutions can have on both people and the environment and, as a brand, we are taking responsibility and driving this agenda to create a better world for our valued staff, our customers, and for society as a whole.

Always here when you need us

We are always on and always on hand.
